SmartTown

Introducing Secure Wi-Fi on the go from HTC

We are excited to announce that HTC is extending your great Wi-Fi experience outside the home and into your community.

SmartTown Now available in Downtown Hartwell

Your online world is not contained within your home – and now your Internet service isn't either! HTC is now offering SmartTown Wi-Fi, a secure, authenticated Wi-Fi connection that allows HTC Max Wi-Fi customers to access a secure network in the downtown Hartwell community. Put to rest your worries about security, mobile data usage, connectivity, and roam freely.

What to know about SmartTown

SmartTown Wi-Fi has better range and is more secure than other public Wi-Fi networks.

No more capping out your data plan or experiencing throttled speeds. Use SmartTown around town and save your data for back-up.

SmartTown Wi-Fi users go through an authentication process, ensuring your connection is protected from hackers, viruses, and other online threats.

Your connection travels with you around town.

You can save your mobile data for when you really need it.

No need to log in and out of multiple Wi-Fi networks around town. Log in once to SmartTown and have access in the downtown Hartwell area.

Take your HTC service with you around town and sign up for SmartTown Wi-Fi today.
